

GDSC ANNUAL REPORT

Google Developer Student Club (GDSC) is a university-based technical community for students interested in Google technologies and programming. The club hosts events, guest lectures and hackathons. Students who participate in GDSC have the opportunity to build new skills and learn with their peers and often have the chance to create technical solutions for their communities

GDG Cloud Nagpur's annual flagship event, "Google Cloud Community Day Nagpur 2023" was organized. A great opportunity to learn about Google Cloud Technology and Google Cloud Certifications from the industry experts in Cloud

Blockchain 101, a workshop organized by GDSC GCOEN to introduce concepts of Web3 and Blockchain technology. The workshop featured fundamental concepts of Blockchain technology, building an awareness of Blockchain technology and how it can be used to process cryptocurrency transactions across an open and distributed ledger a block, the mining process, and consensus algorithms.

DevFest is a technology conference organized by Google Developer Student Clubs (GDSC) in collaboration with Google. It aims to bring together developers, students, and tech enthusiasts to learn, network, and explore the latest trends in technology. The event features workshops, talks, and hands-on sessions on topics such as web development, mobile app development, machine learning, and more.
